

Special COVID-19 Message To Our Cancer Services Family

Dear Friends:

The health and safety of cancer patients, caregivers and other visitors to Cancer Services of Midland is always a top priority. This is true, especially now, as we all address the COVID-19 pandemic.

You are our Number 1 concern and we are here for you, always! To safely continue our services to patients, many of whom are immunocompromised or caring for someone who is, our staff will be operating remotely from their homes effective Monday, March 23. They are prepared to make a seamless transition, providing personal and compassionate support by telephone until the pandemic storm passes. Deliveries of tangible items will be handled case-by-case.

Please note that drivers to cancer-related appointments are in high demand, especially now as Governor Whitmer advises people to stay home to slow the spread of COVID-19. For this reason, we encourage you – if at all possible – to ask family members with whom you have already been in contact to drive you to your appointments. We are happy to send you a gas card by mail. If you have no one to drive, then contact us as usual, and we will do our best to arrange for a driver.

Anyone who has experienced cancer knows more than most how to sanitize and prevent infection. Please stay vigilant and take all the steps recommended by the CDC and health officials to avoid contact with COVID-19 and other diseases. This includes social distancing, disinfection procedures and staying at home.

Call us at 989-835-4841 from 8:30 a.m. – 5:00 p.m., weekdays. You can also reach us through our website at cancerservicesmidland.org/contact. We have your back!

Stay healthy and keep in touch.

Warm regards,

The Staff at Cancer Services of Midland
